## EXPERIENCE

**Backend Developer(Go lang)** | Dezhub Design and Construction  
13 th November 2023- 13th Jan 2024

- Worked as backend intern
- Using Go lang to write logical code for backend to create new modules and new go Routines
- Manage Database To create some fake data using fakeit Library
- Debug the existing code and test
- Use Database Visualization Tools like Garafana, Prometheus

**Backend Developer(Express JS)** | Rablo.in  
09th February, 2024- present

- Worked as backend intern
- Test the existing APIs using postman and fix the error
- I make documents for APIs

## PROJECTS

### Sync Movie Watching Application

- Develop Using React JS library
- I use sockets to maintain sync video watching
- For vidoes used YouTube API
- For authentication JWT (json web token)
- For styling used tailwind

### Shoping website

- Using EJS templeting Engine
- For authentication Passport (local strategy)
- Styling using bootstrap
- Rest APIs used

### Simple chating Application

- For private chating use room configuration in socket.io
- For login just used Passport
- Styling done by bootstrap
